Address: James Wattstraat 77 F2, 1097DL, Amsterdam, Netherlands (Home)

● ABOUT ME

Seeking full-time work. EU Citizen, eligible to work without sponsorship. Most skilled in developing data dashboards and building data pipelines. Have most experience using SQL, Python and PowerBI.
My interests/hobbies include: watching comedy, calisthenics training, reading about technology.

Check out my latest project: <https://alvcantu.pythonanywhere.com/>

● WORK EXPERIENCE

01/06/2023 – 30/06/2024 Amsterdam, Netherlands

BUSINESS INTELLIGENCE ANALYST OPENUP

Online service giving direct access to certified psychologists.

1. Developed all of the organization's PowerBI dashboards completely from scratch.
2. Built a single semantic model combining all useful data marts, allowing for insight gathering from unified sources.
3. My dashboard helped a sales agent upsell a deal for lots of money.
4. Identified application issues through my analysis that eventually lead to changes of user sign-up process.
5. Automated boring and repetitive data tasks using python scripts.
6. Collaboration across teams in fast-paced 'scale-up' type of environment.

01/08/2022 – 31/05/2023 Amsterdam, Netherlands

BUSINESS INTELLIGENCE DEVELOPER SCOTCH & SODA

Fashion retailer

1. Responsible for developing, validating and maintaining Alteryx ETL data pipelines.
2. Transitioned Qlik View visualisations into improved Qlik Sense reports.
3. Collaborated in properly structuring e-commerce, retail, POS and stock data into usable pipelines.
4. Improved data tasks scheduling, taking dependencies and new integrations into account.
5. Automated daily emails and PDF's for various user needs.

01/06/2021 – 08/07/2022 Amsterdam, Netherlands

JUNIOR MARKETING ANALYST VERISURE

Security alarm and systems retailer

1. Responsible for managing, building & maintaining PowerBI reports for marketing department.
2. Acted as liaison between backend and frontend teams, communicating validation and data modelling issues.
3. Collaborated in successfully transitioning reports to new E2E company-wide data structure.
4. Built dashboard showing duplicate marketing leads in our system, helping our team improve lead generation processes.

● EDUCATION AND TRAINING

01/08/2016 – 01/06/2020 United States

BACHELORS OF ARTS (BA) IN ECONOMICS University of California, San Diego

Relevant Courses:

- Econometrics
- Statistics

Website ucsd.edu | **Level in EQF** EQF level 6

● **CERTIFICATIONS**

07/2024
Data Visualization and Storytelling

Learned how to make compelling visuals and present information in a clear efficient manner.
Link <https://xebia.com/academy/nl/nl/training/data-visualization-and-storytelling/>

05/2020
Python Data Products for Predictive Analytics

Designed & deployed accurate predictive systems using real world datasets.
Used design thinking methodology and data science techniques to extract insights from data.
Link <http://coursera.org/verify/specialization/KWBYLJC4E4L8>

2016
Bilingual International Baccalaureate Diploma

● **PROJECTS**

Personal data science app

My very own website where I create data pipelines, make predictions with machine learning models, scrap the web for data, visualise data with javascript, send/receive data with API's, develop large language model solution for easily querying data, create automated PDF's, among many more things.
